CASABASE

HOPPY BELGIAN ALE

A contemporary synthesis between Belgian brewing tradition and the new wave of international beers. Casabase is bright yellow, slightly opalescent, with a compact white head. The nose is a perfect mix between the fruitiness of the yeast esters, with a more citrus-like and resinous notes of American hops. The flavour keep the balance between the sweetness of the fruity and spicy esters produced by the Belgian yeast and the aromas emanated by the blend of hops. The finish is bitter, but not excessively dry.

Tecnical data

Alcohol: 4,8% vol.

Serving suggestions

This very versatile beer can accompany any type of aperitif and first courses of soups and pasta with a light sauce. It also enhances white meats, barbecues, and ethnic cuisine.
